

 **DataHOUSE™** Hong Kong Cloud Data Center

A Safe Home for Hosting Enterprise Applications and Data

CITIC Telecom CPC's DataHOUSE™ cloud data center, with carrier-class Tier III+ telecommunications infrastructure standard, provides not only unified cloud data center solution, but also Disaster Recovery (DR) capabilities and high security measures to protect enterprise's mission critical data for business continuity.

DataHOUSE™@Hong Kong, located at CITIC Telecom Tower (CTT) of Kwai Chung and Ap Lei Chau (ALC), are ideal geographical diversification from all Hong Kong Island, Kowloon and New Territories regions, and specifically designed as one of the cloud computing hubs across Mainland China, Asia, North America and Europe for offering enterprises all-round cloud data center services across boundaries.

HIGHLIGHTS

- **Unmatchable connectivity**
 - Carrier-neutral: multiple peering with 7 local fixed operators, Hong Kong Internet eXchange (HKIX) and global carriers in Hong Kong
 - With CITIC Telecom CPC's IP network and private network connectivity, access to numerous POPs worldwide
 - Direct high-speed and high-bandwidth connections to HKIX, China and global carriers
- **Multiple certifications**
 - Including ISO9001, ISO14001, ISO20000, ISO27001, ISO27017 and Threat, Vulnerability and Risk Assessment (TVRA)
- **Peace of mind**
 - 24 x 7 x 365 total protection, including RFID tracking, biometric access and real-time monitoring
 - Running dual redundant networks to ensure business operation resilience
- **Full Disaster Recovery capabilities**
 - Safeguard the data backups on a scalable cloud platform for companies to rapidly retrieve backups anytime and anywhere

Your Global Local ICT Solutions Partner

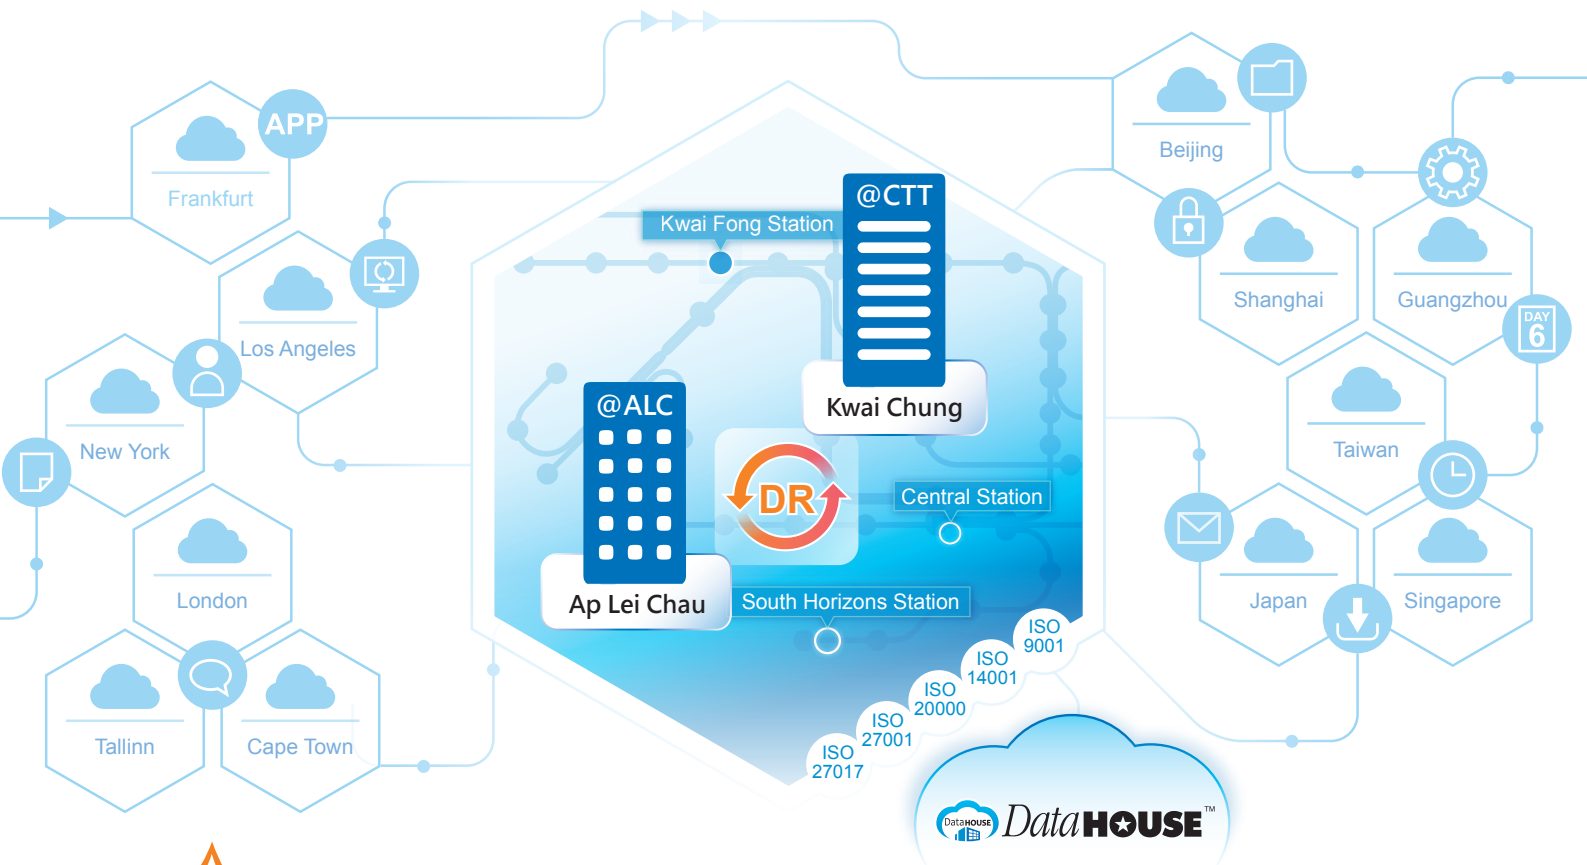

DataHOUSE™ @ CTT (Kwai Chung) and DataHOUSE™ @ ALC (Ap Lei Chau)

 <h3 style="text-align: center; margin-top: 10px;">High Scalability</h3> <p style="text-align: center;">Highly expandable design for more than 4,000 racks, especially suitable for enterprises with sizable scale of data racks</p>	 <h3 style="text-align: center; margin-top: 10px;">Ideal Locations</h3> <p style="text-align: center;">Located at Hong Kong Island and New Territories and close to MTR Stations, ideal for geographical diversification from different regions</p>	 <h3 style="text-align: center; margin-top: 10px;">One-stop ICT Management Service</h3> <p style="text-align: center;">Comprehensive range of managed ICT services, from facility management, connectivity, information security, cloud computing service to value-added managed services</p>
---	--	--

The two DataHOUSE™ cloud data centers are built on a carrier-class Tier III + telecommunications infrastructure standard and seamlessly connected to multiple SmartCLOUD™ Cloud Services Centers and data centers worldwide. DataHOUSE™ not only protects the critical applications but also secures customers' data with the true disaster recovery capabilities and high security measures, enabling customers to stay focus on their business.

DataHOUSE™ Connecting ~30 data centers worldwide
